

PT4ASD

Physical therapy as a tool for developing social-emotional, non verbal communication and relationships skills of youngsters with ASD

OUR PROJECT

Our project focuses on promoting social inclusion for students with ASD by enhancing their ability to communicate and interact with their peers.

THE MAIN FEATURES

The main objective is to equip institutions working with students with ASD with effective strategies and skills that can help these students develop and maintain their social, emotional, and non-verbal communication skills.

OUR MISSION

By improving the social skills of students with ASD who may face challenges in social situations, we aim to create a more inclusive environment where they can participate fully in daily life.
